

Ms. DOLLY PELTO

Program Manager

NAC Consortium Management Firm
315 Sigma Drive, Summerville, SC 29483
dolly.pelto@ati.org

Ms. Pelto is a Program Manager at the NAC Consortium Management Firm, ATI. She supports the overall management of the National Armaments Consortium which includes over 500 companies and academic institutions brought together to enhance warfighter lethality and survivability. Ms. Pelto also coordinates the execution of solicitation processes and single-point contracting efforts for the Defense Ordnance Technology Consortium.

She previously served as the Deputy Technical Director for the National Shipbuilding Research Program, a collaboration of 12 major U.S. shipyards focused on industry-wide implementation of solutions to common cost drivers.

Ms. Pelto has participated in the development of technology roadmaps and strategic investment plans. She has played a key role in executing these plans through coordination of R&D solicitations, proposal evaluation, award, contracting and performance monitoring. Ms. Pelto's long-term relationship with industry clients gives her a strong understanding of their needs and makes her well-suited to develop and implement improvements that increase value to the customer.

Ms. Pelto received a Bachelors of Science Degree in Marine Engineering with a minor in Shipyard Operations Management from the U.S. Merchant Marine Academy. She spent a year at sea on four ocean-going merchant vessels gaining operational experience as a marine engineer, earning an unlimited Third Assistant Engineers License for both steam and diesel vessels. Ms. Pelto is a former Lieutenant in the U.S. Naval Reserve as part of the Merchant Marine Reserve Individual Ready Reserve Group.
